No problem Lisa.

You could go back and forth between the boats - dive platform to talk to the divers, and the "ROV platform" to view video in real time.

Hello Rob,

Thank you for forwarding the dive plan. I hope that the low tides will make the dive easier, or at least not result in too much turbidity.

Will it be possible for me to be on board one of the boats as you conduct the dive operation? I would be very interested to see how the anchors and substrate conditions look. I could also help with interpreting the base map information we have for the buoys. Thanks!

Lisa M. Randlette

Lisa,

FYI - the dive plan with locational information included.

(See attached file: DP2012-06 5-7 Quartermaster-WDNR.docx)
